COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

Mail Stop ISSUE FEE
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Applicants wish to thank the Examiner for allowing the above-identified application.

The Examiner's Reasons for Allowance, as indicated in the May 29, 2009 Notice of Allowance, identify numerous reasons for allowance that may relate a plurality of claims. More particularly, the Reasons for Allowance purports that the U.S. Patent Pub. No. 2004/0066529 by Wu et al. (hereinafter Wu) discloses "unloading document element from RAM to free memory and determining required document elements that need to be in memory to create a page". The Reasons for Allowance further purports that Wu fails to disclose, teach, or suggest certain specific elements of claims 1, 43, and 68.

1

Nonetheless, Applicants note that the application includes independent claims, where each independent claim may recite limitations that are different from or not present in other claims. As such, the independent claims and their respective dependent claims are believed to be allowable for what they respectively recite rather than whether the prior art references fails to disclose any particular claimed limitations.

If the Examiner has any questions or comments, the Examiner is respectfully requested to contact the undersigned at the number listed below.

Respectfully submitted,

Date: <u>August 27, 2009</u>   By: <u>/Erich C. Tzou/</u>
